

Support programme for after-school activities for children of migrants living in the Czech Republic

- **Are you a foreigner in the Czech Republic?**
- **Do you have children living with you?**
- **Would they like to paint, take up a sport, dance, sing, play a musical instrument, or learn any of these?**
- **Would you like to see them develop their talents and make new friends?**
- **We offer the opportunity for them to take part in a variety of after-school activities!**

The **InBáze Community Centre** works long-term with migrant families in trying to **integrate** their children into local **after-school clubs and activities**.

To give your children the opportunity to spend safe and enjoyable time after school we offer support in the following areas:

- We help you identify and choose a suitable activity for each individual child or young adult (arts and crafts, music, dance, sport, computers and lots more).
- We help you to contact the person in charge of each particular group and accompany you to a meeting with them, if required.
- We can also help in financing the activity or buying the necessary equipment (whether it be art materials, a musical instrument or sports equipment)

After-school activity means all activities which help children develop their talents out of school, this can include clubs, groups, courses and other free-time activities.

Free time is a time when a person is not at work or at school and can spend time freely doing something he or she enjoys.
